New address:Rt. 7, Frederick, Md. 21701

12/28/67

Dear Mr. Cook,

Thanks for your thoughtful letter of 12/18, which has been forwarded.

I do not have a copy of the Itek analysis. I should get one but haven't taken the time for I regard it and that approach as suspect. There are too many things upon which they base conclusions that they cannot be certain of. And I never did think there was anyone on the car, if that is what the object is.

However, I have other reasons for believing, as you do, that the more likely source of a shot was in the Arthur corner, particularly at frame 313. There is a perfect hideaway there that the Commission ignored. I have pictures of it.

I had not thought that JFK's ending of plots against Castro figured in this. You are right, it could have been the last straw.

Sincerely,

Harold Weisberg
